

Norfolk Bari™

The Norfolk Bari™ Bariatric Mattress has been specifically designed to suit the differing weight and body shapes of bariatric patients. The mattress profile design has been developed to support the heavier patient group while optimising pressure re-distribution.

The multi-stretch, vapour permeable, high frequency welded cover ensures compliance with strict infection control policies, whilst safeguarding the skin integrity of the patient through a reduction in shear and friction forces.

The Norfolk has been designed for those patients considered to be at 'High Risk' of pressure ulcer development.

PRODUCT FEATURES

- Designed to suit the differing weight and body shapes of bariatric patients
- Developed to support heavier patients while optimising pressure re-distribution
- Multi-stretch, vapour permeable, high frequency welded cover

Features and Benefits

- Multi-stretch, vapour permeable, high frequency welded cover with non-slip base (sewn cover also available). Aids infection control, reduces shear & friction and improves patient safety.
- Covers can be easily cleaned and laundered up to 80C.
- Cut foam surface ensures total comfort is achieved, whilst delivering excellent pressure re-distribution.
- Fire retardant CMS foam fully complies with British Standards.
- UK Manufactured product. Provides total confidence to user via exceptional quality and workmanship.
- Clinically proven. Giving peace of mind to nursing staff and patients alike.
- 50-V Insert.

TECHNICAL INFORMATION

Product Code	NOR-114
Risk Category	High Risk
Fatigue Class	Very Severe
Maximum Patient Weight	50 stone 317kg
Mattress Dimensions	198cm x 120cm x 15cm (Bespoke/made to measure service available)
Mattress Weight	18kg
Foam Density	Insert: 38 – 40kg / m ³
Nominal Hardness	Castellated Insert: 185 – 210N
Mattress Cover Coating	205 – 235g (choice)
Fire Retardancy Standards	Exceeds minimum requirements of Crib 5 Composite testing (certification available upon request) BS7177
Warranty	2 years – extended warranty available
