

What is the safest shower chair for the elderly?

Ensuring safety in the bathroom is crucial for elderly individuals, and the **Eco Traveller SB7e** from Showerbuddy is designed with this priority in mind. This shower chair features a **lightweight yet robust aluminium frame** that supports up to 120 kg (265 lbs), providing both stability and durability. Its **100mm (4") locking caster wheels** ensure the chair remains securely in place during use, minimizing the risk of movement. Additionally, the **adjustable, removable footrests** and fixed arms offer enhanced support and comfort, facilitating safer transfers and seated positions. The chair's **rust-resistant materials** contribute to its longevity and reliability in wet environments. These combined features make the Eco Traveller SB7e a top choice for promoting safety and independence in the bathroom for elderly users..
