

Shower Chairs

Quality. Durability. Hygienic

Backrests and handles

All models are available with either horizontal push handles or vertical handles for use in restricted areas or over WCs. The backrest is pliable and moulds to the user while providing excellent support.

Frames

Available in three sizes:

- 'A' - 540mm (21") wide
- 'B' - 490mm (19") wide
- 'C' - 440mm (17") wide

High-performance wheels

With stainless steel bearings and puncture-proof tyres.

Coating

All Freeway chairs are treated with an antibacterial and anti-microbial coating. The coating is durable and prolongs the life of the chair.

Castors

Highest quality large diameter plastic castors with stainless steel bearings. Some chairs feature service-free, anti-tangle castors as standard.

Armrests

With soft but supportive tops. The armrests detach or swing away for easy access and transfer.

Seats

Fully padded, horseshoe or full ring seats with different-sized apertures that are interchangeable.

Brakes

Self-propelled models have large wheel brakes fitted as standard.

Footrests

They flip up and are height adjustable. They can also be easily removed or swung conveniently away from the user's foot area.

Bespoke, cost-effective toileting and showering solutions

Manufactured in the UK from only the highest quality materials, the comprehensive range of Freeway assisted or self-propelled shower, toilet and commode chairs are designed to provide the most effective solution to a client's toileting and showering needs.

Freeway Shower Chairs are modular and can be configured to choose interchangeable seats, backrests, armrests and footrests. A variety of accessories are available to ensure the most bespoke solution.

All adult models within the range are specifically designed to fit over a standard toilet or commode, with three widths available; 'A' – 540mm (21"),

'B' – 490mm (19") and 'C' – 440mm (17"). Paediatric, plus-size and models to fit over automatic toilets are also included in the range.

The modular design of Freeway Shower Chairs makes the range one of the most cost-effective on the market, as accessories and parts can be added to suit a client's changing needs. Frames can be lowered/raised, rear wheels set back/forward, and the frame depth extended/shortened.

Where there are special needs, we can manufacture a bespoke shower chair subject to an individual assessment. All models have a 5-year warranty as standard.

Shower Chairs

Freeway T20 Moulded Shower Seat Chair

Available as a static model or with four castors. It has a moulded polypropylene seat and fixed arms.

Freeway T30 Free Standing Shower Chair

The Freeway T30 is a static shower chair with slip-resistant rubber feet or floor-fixing options available.

Freeway T40 Assistant-Propelled Shower Chair

Versatility is the key with the T40 as it can be raised/lowered, extended forward, and rear castors set back for amputee use, to name a few of its applications. Features four total stop castors and footrests as standard.

The **Freeway T40 COM** is a version of the standard T40 modified to work seamlessly with the Clos-o-Mat Samoa toilet.

The **Freeway T40 AUTO** is for use with automatic toilets, including the Mera, Geberit range and Clos-o-Mat Palma Vita. Features pram handle backrest and seat with a skirt as standard.

A version to work with the BIO bidet is also available.

All models except T20 are available as shower, toilet or commode chairs.

Freeway T50 Front Wheel Self-Propelled Shower Chair

The Freeway T50 features 510mm (20") braked front wheels and includes footrests as standard. It is ideal for operating in tight spaces due to the positioning of the castors.

Freeway T60 Self-Propelled Shower Chair

The short overall length makes this chair ideal for small shower cubicles. The chair's low braked wheel facilitates seamless side transfers as the top of the wheels is below the chair's seat height. Available as self-propelled or assistant-propelled, the 510mm (20") rear wheel aids manoeuvring over a lip or small step. Anti-tip bars are featured as standard.

Freeway T70 Self-Propelled Shower Chair

The benefits of large braked rear wheels make this chair easy to self-propel. The standard self-propelled model with 560mm (22") rear wheels has easily removable push rims and footrests fitted.

Freeway T70 COM: Modified to work seamlessly with the Clos-o-Mat Samoa toilet.

Freeway T70 AUTO: Designed for use with automatic toilets, including the Geberit 8000 range and Clos-o-Mat Palma Vita

Freeway T70 Side Access: Equipped with left /right side opening and adapted swing-away armrests. A version to work with the BIO bidet is also available.

Height Adjustable

Freeway Height Adjustable Shower Chair

A highly versatile, height-adjustable assistant-propelled chair. The seat height can be adjusted from 510 – 560mm in 25mm increments. The chair features service-free, anti-tangle castors with red brake levers as standard. It benefits from the same bespoke configurations as the T40.

Reclining

Our reclining chair and shower cradle have significant advantages for many conditions, increasing comfort and relieving pressure.

Such conditions include:

- Multiple sclerosis
- Spinal injuries
- Motor Neurone Disease
- Stroke
- Cerebral palsy
- Other neurological conditions

The T80 is available as a shower, toilet or commode chair.

Freeway T80 Reclining Shower Chair

The Freeway T80 is highly versatile and reclines up to 40 degrees through infinite positions. The tilt action is easy and light to operate.

The Freeway T80 is available as assistant-propelled or self-propelled and has a safe working load of 160kg (25 stone).

An extensive range of accessories is available for this model, such as a full or half-height detachable headrest.

Freeway T80 COM

A variation of the T80 reclining shower chair, designed to work seamlessly with the Clos-o-Mat Samoa toilet.

Freeway T80 AUTO

A version of the T80 for use with automatic toilets, including the Mera, Geberit range and Clos-o-Mat Palma Vita.

Freeway Flow Shower Cradle

The Freeway Flow offers the next level of support, providing a comfortable, controlled and secure bathing experience, which is particularly advantageous for those with reduced mobility.

The cradle features anti-tangle castors, removable fabric and a height-adjustable frame with three height settings across 25mm increments. It is available as a shower or commode chair.

Paediatric

The Freeway Paediatric Shower Chair range features a seat width of 360mm and a seat depth of 325mm.

Freeway T80 Paediatric Reclining Shower Chair

The Freeway T80 Paediatric is a reclining shower or toilet/commode chair that has been purpose-built for the needs of younger clients.

Freeway T90 Paediatric Shower Chair

The Freeway T90 Shower Chair/Commode features a seat height of 460mm. Footplates are flip-up, removable and height/depth adjustable. The T90 is available as an assisted or self-propelled model.

The **Freeway T90 WC** is a variation of the above, but for usage as a toilet commode – with a seat height of 560mm, allowing clearance over standard toilets and automatic bidets. NB: Self-propelled model is wider due to the splayed frame

Plus-Size

Freeway T100 Bariatric Shower Chair

The Freeway T100 carries up to 350kgs (55 stone) and is suitable for various applications for bariatric clients. Seat dimensions are 790mm wide and 550mm deep.

The T100 benefits from increased diameter tubing, special heavy-duty castors, and heavy-duty footrests with heel supports which are height adjustable, removable and swing away. The T100 is also available in smaller width frames than the standard.

All models except T20 are available as shower, toilet or commode chairs.

Adaptations & Accessories

Freeway Shower Chairs can have adaptations, accessories and alterations to suit specific needs. Some options shown here may be fitted to an existing chair, while others will be available only on a new build.

We understand that there are many options available. Please take advantage of a free assessment so that we can find the right solution for you.

without strap
supports)

Padded style

Backrests

5° reclined

Extended

Detachable
headrest

Seats

A padded seat is a major contributor to the comfort and support offered by any Freeway Shower Chair.

The vast choice of standard seats means there is a seat for most situations, and we also supply custom seats for exceptional cases.

The following are examples of custom seats:

- Increased or extra comfort padding
- Reduced padding
- Wedged padding
- Dartex upholstery (breathable four-way stretch fabric allows more significant moulding of seat to the user and may help with pressure relief)
- Different sized/shaped apertures
- Extended seat depths (over 75mm involves frame alteration)

Footrests

Raised (60, 90 or 120mm higher)

Heavy duty

Integral heel supports with Velcro toe/foot straps

Clip-on padded foot tray

Individual clip-on foot tray

Wrap-around vinyl footrest covers
