# IN-BATH BATHING CRADLE

Designed to assist

Our In-Bath Bathing Cradle has been designed for use in the bath to make bathing, washing and providing personal care easy. The cradle is hoist-able for patient transfers into a bath. The bathing cradle will support a patient in a reclined position allowing greater immersion in the water.

The mesh fabric is easily removable and features a polygiene antimicrobial coating. The cradle is manufactured using stainless steel, and a quality finish is guaranteed with the polyester powder coating. Four standard sizes available, but if you have a bespoke requirement - contact us. The In-Bath Support is available separately as part of our accessories range.

## OPTIONAL ACCESSORIES

Washing Aperture

Side Support Rolls

Neck Roll

Delta Head Rest

View our full range of accessories on our website: [www.orchid-medicare.co.uk](http://www.orchid-medicare.co.uk)
