Repose Seating Solutions For Riser Recliner Chairs

repose[®]

Do you have patients who spend a substantial amount of time sitting in a riser recliner chair?

Do you have patients who sleep in their riser recliner chair?

Repose Seating Solutions

For Riser Recliner Chairs

Repose Seating Solutions is a range of pressure redistribution cushion overlays suitable for riser recliner chairs, utilising the clinically proven Repose reactive air cell and smart valve technologies and pre-inflated solutions for those patients using riser recliner chairs.

Repose Seating Solutions can offer pressure area care to the back, seat and leg sections, for those patients requiring a specialist support surface. Repose secures to all types of riser recliner chair sizes and can be easily retro-fitted to existing chairs with the integrated retention straps.

Repose protects patients at all levels of risk

Repose is indicated for the treatment of all categories of pressure ulcers

Multi-patient Use

Repose is easy to clean and can be reused for multi-patient use.

3 Year Warranty

Repose is supplied with a three year warranty as standard

The Repose Seating Solutions offers:

- An easy to use, portable, non-powered, durable and multi-patient use solution
- A pressure redistribution support surface for riser recliner chairs
- Protection for patients at all levels of risk include those at very-high risk
- Treatment of pressure ulcers when part of a package of care
- A slim profile seating surface improving patient stability and comfort
- Integrated retention straps
- A polyurethane (PU) cover for enhanced patient comfort and added product protection
- A reduction in new equipment and prescribing costs of when retro-fitted to an existing riser recliner chair

Repose is beneficial for:

- Patients who spend a substantial amount of time sitting
- Patients who sleep in a riser recliner chair
- Patients who wish to use their own riser recliner chair
